

Melos Shabi

Full-Stack Developer

Peje, Kosovo

+38343518343 | melosshabi@protonmail.com | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

QUALIFICATION SUMMARY

Full-stack developer who delivers responsive, user-focused web and mobile applications. Skilled in building dynamic front-end interfaces with React, Next.js, and React Native, as well as developing secure and scalable back-end solutions using Node.js, ASP.NET Core, MongoDB, and Firebase. Experienced in freelancing and full-time roles, including frontend development and independent full-stack projects. Passionate about solving complex problems, optimizing performance, and continuously expanding expertise in modern, scalable software development.

KEY SKILLS

HTML	React	ASP.NET Core
CSS	React Native	Avalonia
TailwindCSS	Express.JS	MongoDB
JavaScript	Next.JS	Firebase
TypeScript	C#	Git

RELEVANT PROFESSIONAL EXPERIENCE

React Native Developer

October 2025 - Present

MyEduIn

I develop and maintain cross-platform mobile applications using React Native, focusing on creating responsive UI components and seamless API integrations. I optimize application performance to deliver smooth, consistent experiences across both iOS and Android platforms. Collaborating with design and backend teams, I actively participate in feature development, conduct thorough code reviews, and resolve technical issues while adhering to industry best practices and maintaining clean, maintainable code architecture.

Full Stack Developer

Novemeber 2024 - Present

Freelancer

Working as a freelance full-stack developer delivering end-to-end solutions for web and mobile applications. Designed and implemented responsive, interactive user interfaces using React, Next.js, and React Native, while developing robust back-end services with ASP.NET Core and integrating databases for efficient data management. Collaborated directly with clients to gather requirements, propose technical solutions, and ensure timely delivery of high-quality, scalable products.

Frontend Developer

March 2023 - April 2024

Dolphins Group

Peje, Kosovo

Was responsible for designing and implementing responsive and interactive user interfaces for web and mobile applications. I collaborated closely with cross-functional teams to ensure seamless integration, usability, and optimized performance across all projects.

PROFESSIONAL PROJECTS

Buff Finder App

March 2025 - May 2025

React Native, ASP .NET Core, MongoDB, Web Sockets.

Buff Finder

November 2024 - March 2025

Next.js, TypeScript, MongoDB, Express, Web Sockets.

EDUCATION

Bachelor of Science, Computer Science

June 2026

UNI-Universum International College

Prishtina, Kosovo

Relevant Coursework: Web Development, Algorithms, Data Structures, OOP, Operating Systems
